***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the closest prior art reference of record is the patent to Delo et al. (6,418,554); however, the reference does not teach or suggest the features of claims 1 or 8 of installing software using "mutually exclusive switches, one switch to perform the copy phase only and another switch to perform the enumeration phase only with the assumption that the copy phase has been performed".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
